

## NOOK INDUSTRIES INTRODUCES STANDARD METRIC SCREW JACKS ACTIONJAC™ WORM GEAR SCREW JACKS AVAILABLE IN METRIC SIZES TO MEET ALL LINEAR MOTION NEEDS

Cleveland, OH – June 28, 2004

Nook Industries, a leading manufacturer of linear motion control systems and components, today announced the availability of its ActionJac™ family of ball screw and trapezoidal screw jacks in metric sizes, providing a complete range of universally accepted mechanical actuators.

Standard metric ball and trapezoidal screw jacks range in capacity from 5kN to 200kN and are built to the same world-class specifications as the ActionJac imperial sizes. The full line of Nook accessories, including boots, limit switches, top plates, clevises, and trunnion mounts, and IEC motor mounts are available for the metric jacks.

“We are excited to introduce the metric ActionJac,” says Ron Domeck, President of Nook Industries. “We are now prepared to penetrate the global market by offering sizes that are conducive to users worldwide. Our technology and experience are allowing us to produce metric units as efficiently and cost-effectively as the inch sizes, which lets our customers know that we are committed to supporting their applications anywhere in the world.”

2D and 3D models of Nook products—including ActionJac™ Worm Gear Screw Jacks, MiniLift™ Linear Actuators, ActionJac™ ILA Cylinders, ActionJac™ Electric Cylinders, MM Slide™ Systems, PowerTrax™ Linear Bearings, Pillow Blocks and Slide Systems, PowerAc™ Acme Screw Assemblies, PowerTrac™ Ball Screw Assemblies, End Machining & EZZE-MOUNT™ End Bearing Supports—in all major CAD formats, including AutoCAD®, SolidWorks®, CATIA® and Pro/E®, are available for download at [www.nookindustries.com](http://www.nookindustries.com).

### About Nook Industries

Nook Industries is a leading manufacturer of linear motion components and linear control systems that are used in a multitude of applications requiring controlled, straight-line movement. Founded in 1969, Nook Industries designs and manufactures innovative solutions for industrial applications involving precise lifting and/or positioning. Many of the world's leading manufacturers in industries ranging from transportation, medical/diagnostics, and paper to chemical, food/beverage, and communications rely on Nook products for tooling and product design. Headquartered in Cleveland, Ohio, Nook Industries is committed to quality, emphasizing continuous improvement, defect prevention, and the use of statistical methods and consistent training to ensure the quality of its products. For additional information, visit the Nook web site at [www.nookindustries.com](http://www.nookindustries.com) or call 1-800-321-7800.
